

Migration Assessment - Telford & Wrekin Council and Black Country LPA's

Methodology

The purpose of this document is to establish a baseline per annum dwelling figure that can help guide a potential contribution towards the unmet development needs of the Black Country Local Planning Authorities of Wolverhampton, Dudley, Sandwell and Walsall.

Steps:

- 1 On the Black Country Local Planning Authority tabs (column F) the ‘internal out’ figures have been added together - **NOTE:** the Black Country councils and Birmingham have been excluded as they are not able to meet their own housing needs and therefore can be taken out of the numbers.
- 2 Any movements of less than 100 (it is reasonable to assume these are negligible) with the exception of Solihull as its part of the west midlands met authorities have been removed from the figures in column F for each LPA.
- 3 In the Dwelling Equivalent analysis tab the 'internal out moves' (Column F) to Telford have been calculated as a % of the total net moves for each of the Black Country Local Planning Authorities minus the above – shown in cells D4 – D7
- 4 The % for each LPA has then been applied to the total unmet housing needs for each Black Country Local Planning Authority Area (at the time of writing) to give a dwelling equivalent figure – shown in cells D12 – D15 on the Dwelling Equivalent analysis tab.
- 5 This potential total contribution figure has then been divided by 20 year over the plan period giving an estimated number of homes (126 p/a) that could form the basis of a contribution towards the unmet needs of the Black Country LPAs – shown in cell D18 on Dwelling Equivalent analysis spreadsheet.
