

From Representatives ID O62: Shawbirch Medical Practice Patient Group (SMCPG)

Please note: We are the Patient Group, which represents the patients of the Medical Centre, not the practice itself.

Additional Statement and Question relating to Matter 5 Issue 2 (question 49)

Questions:

- 1) It would appear Matter 6 Issue 7 question 129 regarding Policy C11: “Community facilities” could duplicate OR complement / strengthen the points in question 48. Is this the case?
- 2) Does it require obligations to also consider surgeries as a business or otherwise in the allocation plans of land distribution for business, local employment, and housing? If not, then proactive liaison and planning mechanisms of working together with the health services would be required to be demonstrated in enabling additional surgeries to be supported in siting within or near the new SCs.
